Jamil Ahmed

Cybersecurity & Tech Enthusiast | BSc DFCS Student | Ethical Hacker & Penetration Tester | Networking | MERN Stack & Laravel Developer

Summary

Cybersecurity & Tech Enthusiast pursuing a BSc in Digital Forensics & Cyber Security. Ethical hacker and penetration tester. Skilled in MERN stack and Laravel development, combining coding expertise with a passion for securing the digital world.

Experience

SU Solz

Laravel Developer

November 2024 - Present (6 months)

Explosion Services

Customer Service Representative

February 2023 - June 2023 (5 months)

The Red Users

Remote Internship 1 Month

During my internship at The Red Users, I developed foundational cybersecurity skills and gained hands-on experience in securing networks and web applications. My responsibilities included:

- Network Security Basics:

Researched and documented common network threats such as viruses, worms, and phishing attacks. Configured firewalls and implemented basic security measures like password protection and network encryption (WPA2/WPA3). Monitored and analyzed network traffic using Wireshark to identify potential security threats.

- Web Application Security:

Explored vulnerabilities in a test environment using tools like OWASP ZAP and WebGoat. Identified and documented vulnerabilities, including SQL Injection, Cross-Site Scripting (XSS), and Cross-Site Request Forgery (CSRF).

Prodigy InfoTech
